INDEPENDENT AUDITORS' REPORT

The Board of Directors of Global Resource Investments, Ltd.

We have audited the accompanying statement of financial condition of Global Resource Investments, Ltd. as of December 31, 2008, and the related statements of operations and other comprehensive income, changes in partners' capital and cash flows for the year then ended. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Global Resource Investments, Ltd. as of December 31, 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The information contained in the supplemental schedules listed in the accompanying index is presented for purposes of additional analysis and is not required for a fair presentation of the financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

Global Resource Investments, Ltd. (the "Partnership") is a California limited partnership which was organized on September 24, 1993 and operates as a securities broker-dealer. The general partner of the Partnership is Rule Investments, Inc. ("RII").

The Partnership, under Rule 15c3-3(k)(2)(ii), is exempt from the reserve and possession or control requirements of Rule 15c3-3 of the Securities and Exchange Commission. The Partnership does not carry or clear customer accounts. Accordingly, all customer transactions are executed and cleared on behalf of the Partnership by its clearing broker on a fully disclosed basis. The Partnership's agreement with its clearing broker provides that as clearing broker, that firm will make and keep such records of the transactions effected and cleared in the customer accounts as are customarily made and kept by a clearing broker pursuant to the requirements of Rules 17a-3 and 17a-4 of the Securities and Exchange Act of 1934, as amended (the "Act"). It also performs all services customarily incident thereon, including the preparation and distribution of customer's confirmations and statements and maintenance margin requirements under the Act and the rules of the Self Regulatory Organizations of which the Partnership is a member.

Securities Valuation and Revenue Recognition

The Partnership records proprietary transactions, commission revenue and related expenses on a tradedate basis.

The Partnership adopted the provisions of SFAS No. 157, "Fair Value Measurements" (SFAS No. 157), effective January 1, 2008. Under SFAS No. 157, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Partnership uses various valuation approaches. SFAS No. 157 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Partnership. Unobservable inputs reflect the Partnership's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Securities Valuation and Revenue Recognition (continued)

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Partnership in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Partnership's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Partnership uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Partnership values investments in securities that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

Many cash and over-the-counter (OTC) contracts have bid-and-ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Partnership's valuation policies require that fair value be within the bid-ask range. The Partnership's policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are valued at their last reported "bid" price. These securities are included in Level 1 of the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Securities Valuation and Revenue Recognition (concluded)

Restricted securities of publicly traded companies are valued at the fair value of the public company's publicly traded securities less a discount. The Partnership discounts the unrestricted fair values based upon various factors such as the length of the restriction period and the underlying stability of the public company. These securities are included in Level 2 of the fair value hierarchy.

The Partnership's investments in private companies consist of direct private equity investments. The transaction price, excluding transaction costs, is typically the Partnership's best estimate of fair value at inception. When evidence supports a change to the carrying value from the transaction price, adjustments are made to reflect expected exit values. Ongoing reviews by the Partnership's management are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, comparable transactions and the overall stability of the principal market where the security would trade if the security were public. These nonpublic securities are included in Level 3 of the fair value hierarchy.

Foreign Currency

Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Foreign currency translation adjustments arise from changes in the fair values of assets and liabilities, other than investments in securities, resulting from changes in exchange rates. This amount is reported as other comprehensive income or loss in the statement of operations and other comprehensive income or loss.

Furniture and Equipment

Furniture and equipment are depreciated over their estimated lives of five to seven years, while leasehold improvements are amortized over the life of the improvements.

Profit and Loss Allocations

Profits and losses from operations are allocated to partners based on the Agreement of Limited Partnership. The Agreement of Limited Partnership generally provides for this allocation to be made based on the respective partners' capital accounts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Cash Equivalents

For purposes of the statement of cash flows, the Partnership considers all money market accounts held at their clearing broker to be cash equivalents.

Income Taxes

The financial statements do not include a provision for income taxes because the Partnership is not a taxable entity and its partners are taxed on their respective share of partnership earnings.

NOTE 2 - NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Partnership is required to maintain a minimum net capital, as defined under such provisions. At December 31, 2008, the Partnership had net capital and net capital requirements of \$6,459,565 and \$250,000. The Partnership's net capital ratio (aggregate indebtedness to net capital) was 0.19 to 1. According to Rule 15c3-1, the Partnership's net capital ratio shall not exceed 15 to 1.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Partnership's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with SFAS No. 157. See Note 1 for a discussion of the Partnership's policies.

The following table presents information about the Partnership's assets measured at fair value as of December 31, 2008:

	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2008	
Assets:					
Securities, at fair value	\$ 2,444,009	<u>\$ 889,735</u>	\$ 263,125	\$ 3,596,869	

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 3 - FAIR VALUE MEASUREMENTS (concluded)

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Partnership has classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable (e.g., changes in unobservable long-dated volatilities) inputs.

Changes in Level 3 assets measured at fair value for the year ended December 31, 2008 are as follows:

	Balance as of December 31, 2007	Purchases and Sales, net	Realized and Unrealized Gains and (Losses)	Net Transfers In (Out)	Balance as of December 31, 2008	Change in Unrealized Gain (Loss) On Securities Still Held
Assets:						
Securities, at fair value	<u> </u>	<u>\$ 1,052,503</u>	\$ (789,378)	<u> </u>	<u>\$ 263,125</u>	<u>\$ (789,378)</u>

NOTE 4 - COMMITMENTS

The Partnership leases office space and equipment from unrelated parties under non-cancelable operating leases expiring through 2012. Future minimum rental commitments under these leases are approximately as follows:

	Equipment						
Year	Office Lease		ease Lease			Total	
2009	\$	251,188	\$	2,844	\$	254,032	
2010		258,669		2,370		261,039	
2011		265,867		-		265,867	
2012		250,866			_	250,866	
	\$	1,026,590	\$	5,214	\$	1,031,804	

Total rental expense, including the leases referred to above, was \$300,704 for the year ended December 31, 2008.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 - RELATED PARTY TRANSACTIONS

The Partnership is affiliated with Resource Capital Investment Corporation ("RCIC"). RCIC is the general partner of three investment partnerships, Exploration Capital Partners 2000 Limited Partnership ("Exploration 2000"), Exploration Capital Partners 2005 Limited Partnership ("Exploration 2005") and Exploration Capital Partners 2008 Limited Partnership ("Exploration 2008"). RCIC receives a profit participation from Exploration 2000, Exploration 2005 and Exploration 2008 based on the net income generated by the investment partnerships. RCIC pays a portion of the profit participation in Exploration 2000 to the Partnership as commissions. For the year ended December 31, 2008, the Partnership received profit participation of \$1,887,696 from RCIC. Effective January 1, 2009, the Partnership will not be entitled to receive any future profit participation from RCIC.

The Partnership is affiliated with Resource Investment Management Corporation ("RIMC") who is the general partner of two investment partnerships, Exploration Capital Partners 1998-B Limited Partnership ("Exploration 1998-B") and Exploration Capital Partners 2006 Limited Partnership ("Exploration 2006"). Effective December 31, 2008, RCIC merged with RIMC. RCIC now acts as the general partner of all of the affiliated investment partnerships.

The Partnership pays a management fee to RII as the general partner. The Partnership pays the general partner a fee of \$37,500 on the first day of each calendar quarter. For the year ended December 31, 2008, the Partnership paid management fees of \$150,000 to RII.

The Partnership receives normal fees charged for the execution of purchases and sales of securities from the aforementioned related funds. For the year ended December 31, 2008, the Partnership received \$187,269 in commissions and trading fees from these funds.

The Partnership is also affiliated with Terra Resource Investment Management Corporation ("TRIM") by virtue of common ownership. The Partnership receives a fee for providing back office management and administrative services. For the year ended December 31, 2008, the Partnership earned \$282,421 for the performance of such services and had a receivable from TRIM of \$82,869 for salaries paid on behalf of the Partnership.

NOTE 6 - OTHER COMPREHENSIVE INCOME/(LOSS)

Changes in accumulated other comprehensive income (loss) for December 31, 2008 are as follows:

	Currency Translation Gain (Loss)		General Partner		Limited Partner	
Balances, December 31, 2007 Change during 2008	\$	(11,916) (26,879)	\$	(119) (269)	\$	(11,797) (26,610)
Balances, December 31, 2008	<u>\$</u>	(38,795)	\$	(388)	<u>\$</u>	(38,407)

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 7 - FINANCIAL INSTRUMENTS, OFF-BALANCE SHEET RISKS AND CONTINGENCIES

The Partnership's future operating results may be affected by several factors. The investments of the Partnership may be affected by general and local economic, political and social conditions that can affect the prices of the securities in countries in which companies undertake their activities. Markets can also be affected by currency changes, new tax and environmental legislation, laws restricting sales of natural resources and the absence of liquidity in the securities.

In the normal course of business, the Partnership's client activities ("clients") through its clearing broker involve the execution, settlement, and financing of various client securities transactions. These activities may expose the Partnership to off-balance sheet risk. In the event the client fails to satisfy its obligations, the Partnership may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the client's obligations.

In the Partnership's trading activities, the Partnership has purchased securities for its own account and may incur losses if the market value of the securities changes subsequent to December 31, 2008.

The Partnership has a substantial portion of its assets on deposit with clearing brokers. Assets deposited with clearing brokers are subject to credit risk. In the event of a clearing broker's insolvency, the amounts held with the clearing brokers could be subject to forfeiture.

The Partnership's financial instruments, including cash, receivables, payables and other liabilities are carried at amounts which approximate fair value. Securities owned are valued as described in Note 1.

INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5

The Board of Directors of Global Resource Investments, Ltd.

In planning and performing our audit of the financial statements and supplementary information of Global Resource Investments, Ltd. (the "Partnership") as of and for the year ended December 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Partnership's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, we do not express an opinion on the effectiveness of the Partnership's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Partnership including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Partnership in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Partnership does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Partnership is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute assurance that assets for which the Partnership has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. This report recognizes that it is not practicable in an organization the size of the Partnership to achieve all the divisions of duties and cross-checks generally included in a system of internal accounting control and that alternatively greater reliance must be placed on surveillance by management.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Partnership's practices and procedures as described in the second paragraph of this report were adequate at December 31, 2008 to meet the SEC's objectives.

In addition, our review indicated that the Partnership was in compliance with the conditions of exemption from Rule 15c3-3 pursuant to paragraph k(2)(ii) as of December 31, 2008, and no facts came to our attention to indicate that such conditions had not been complied with during the year.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Spices Jeffie LCP

Greenwood Village, Colorado February 6, 2009

GLOBAL RESOURCE INVESTMENTS, LTD.

REPORT PURSUANT TO RULE 17a-5(d)

YEAR ENDED DECEMBER 31, 2008
